

**ITALIAN MADE  
SIERRA TESTED**

**DESIGNED FOR THE MOUNTAINS**

# CABIN

- Reverse cockpit
- Air Controlled - Heat & Air Conditioning
- Joystick with reactive hydraulic functions
- Antifog Glass Enclosure
- 360 Views

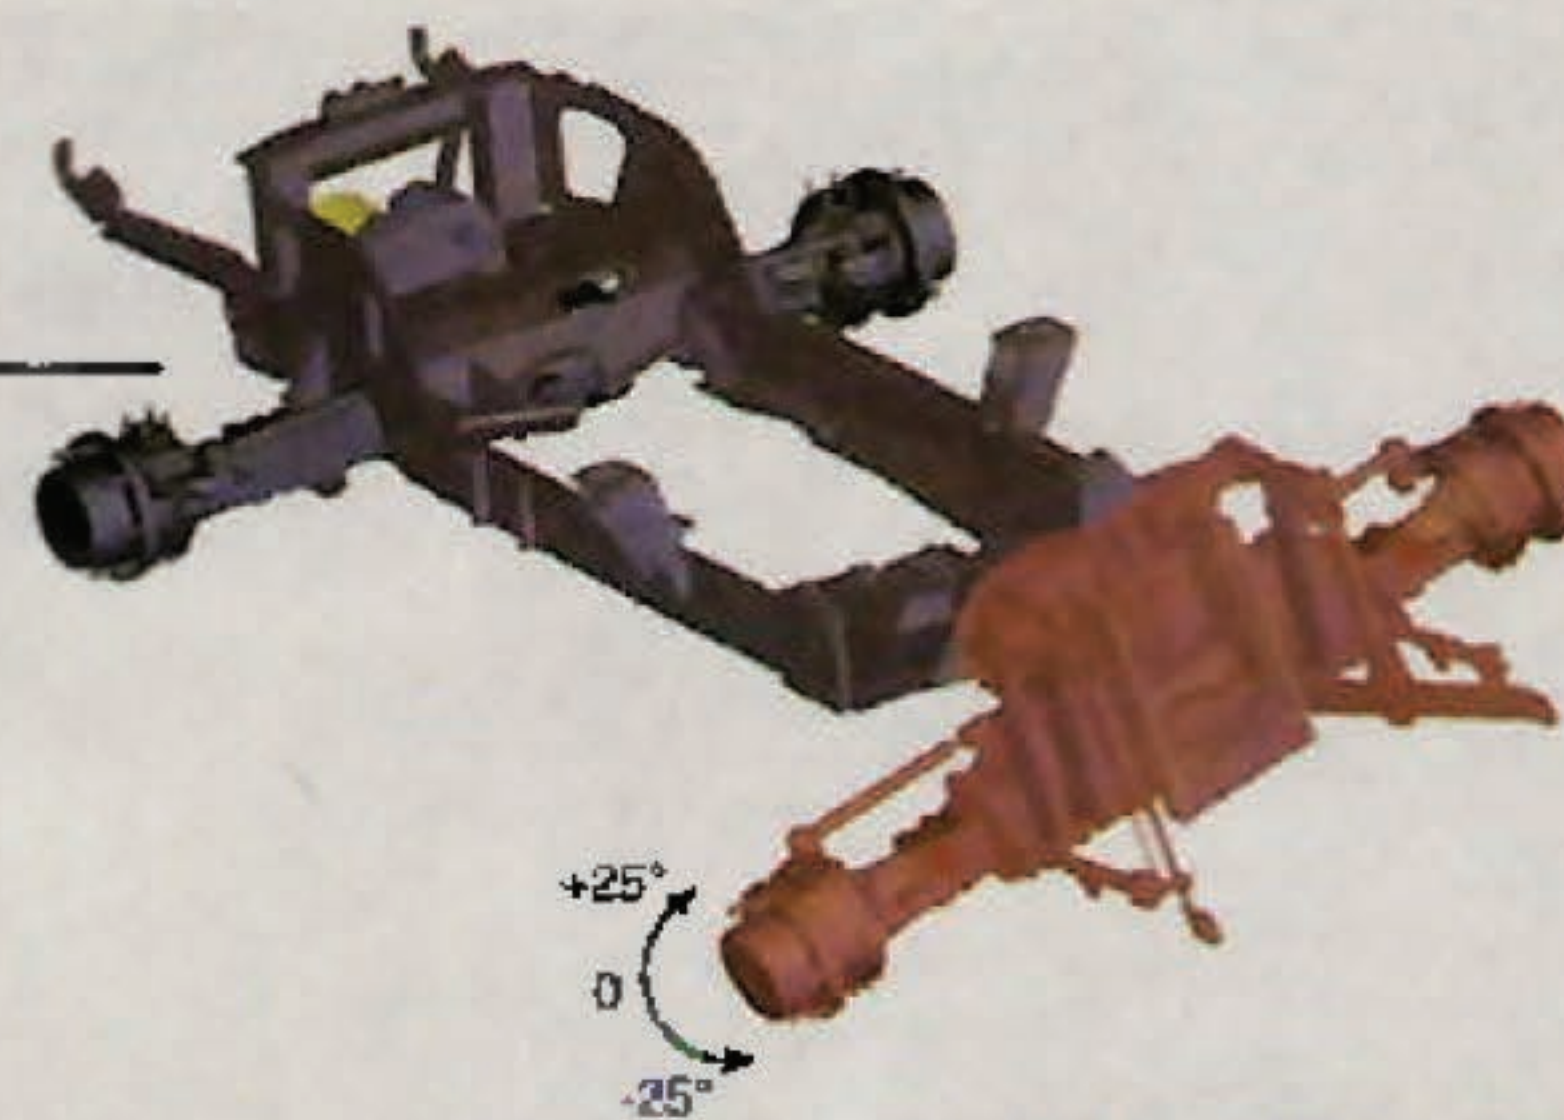

# CONTROLS

A multi-function joystick controls the machine's progress and activates all auxiliary circuit commands (proportionals). Speed from 0 to 25 mph.

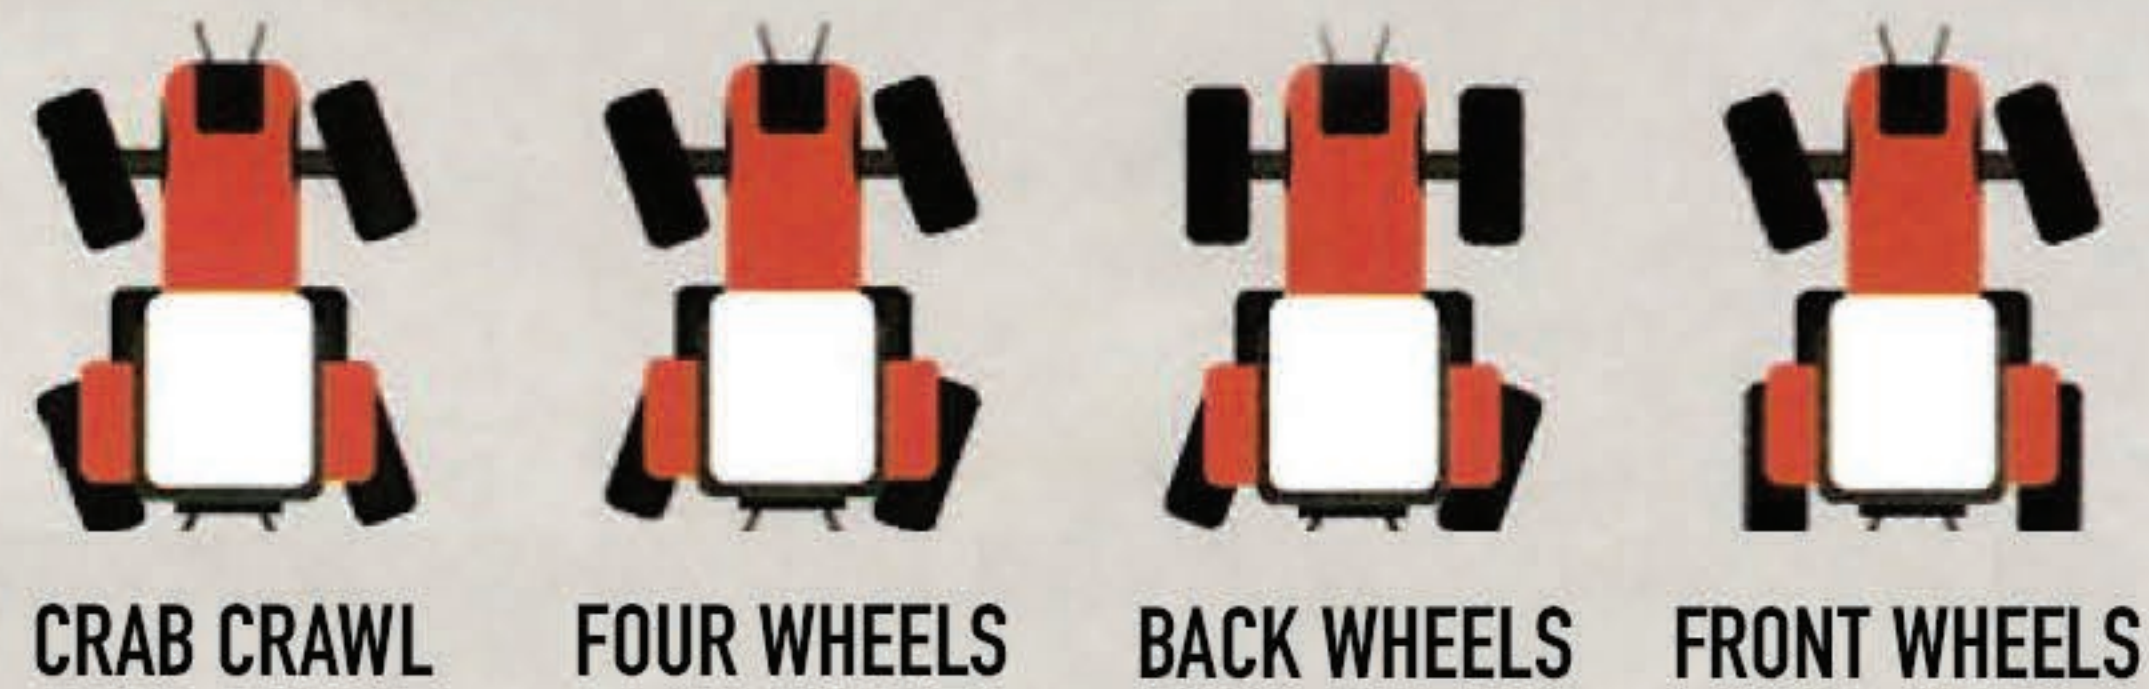

# SPECIALIZED FRAME

The monobloc chassis receives an articulated drive axle improving its behavior in difficult terrain.

# STEERING

The BETTER has 4 equal steering wheels which offer a versatile grip and crossing capabilities.

UNMATCHED  
TURNING  
RADIUS

# LIFT

The rear lift has a capacity of 9900 lbs and has a load-carrying compensator. Power take-off (PTO): 540/1000 rpm clockwise/counterclockwise.

The front lift has a capacity of 5500 lbs and can be equipped with a power take-off of 1000 rpm counterclockwise. Option: Auxiliary hydraulic outputs.

- 1** REAR HITCH
- 2** VENTRAL HITCH
- 3** FRONT HITCH

# VERSATILITY

With the front and rear lift, the BETTER is used throughout the year in different sectors, such as Agricultural, Construction, Forestry, and Snow Removal.

# TIRES

Numerous tire mounts with varied profiles allow BETTER to adapt to all working conditions.

# COLORS

The BETTER is available in several colors options.

## FEATURES

## BETTER 175

<b>Engine</b>	IVECO FPT – 4500 cm <sup>3</sup> 170 HP CV (125KW) 2300 RPM
<b>Cylinder</b>	4 CYLINDERS
<b>Weight</b>	10,000 LBS
<b>Transmission</b>	HYDROSTATIC
<b>Gear Box</b>	3 RANGES + 6 UNDER LOAD SPEEDS WITH ELECTRONIC MANAGEMENT & AUTOMATIC REDUCTION
<b>Front lift / Front PTO</b>	CAPACITY MAX: 5500 LBS – 1000 RPM – COUNTERCLOCKWISE
